2018 Board members up for re-election: Cooper Quinn

All candidates presented a short summary of why they are applying to the Board and their vision for 2019. Peter Sanford was absent so details from his application were presented by the chair.

Cooper Quinn, Brent Hillier, Corey Brennan, Morgan Mallet, Taylor Donohoe, Don Halliday, Laura Tacchi, Peter Sanford and Isabelle Deguise were unanimously acclaimed to the Board of Directors as a slate

The Chair welcomed all new and returning members to the Board of Directors for 2019 and thanked all previous Directors for their hard work and dedication to the association.

# **Question/Answer and Comments Period**

# What will be the name of the aMTB loop?

Cooper Quinn responded – Individual trail names will not be changed and no name for the loop has been set yet.

#### What do the NSMBA feel about E-bikes?

Cooper Quinn responded – the NSMBA's currently policy is that we advocate for non-motorized recreation but we see them as valid trail users on the appropriate trails. We do not set the official policy on e-bike use but we will work with the relevant land managers when appropriate. We do not enforce trail restrictions for any users, as that lies within the responsibility of the land managers.

We are looking at ways to have the public give their input in the most effective way possible, so that the land managers can be informed when planning and adopting their official policies. Incoming policy that is to be adopted by RSTBC is on a provincial level and will not apply to any land on the North Shore but the North Shore land managers will most likely be looking at this example when making their own policies for a mixed-use trail network.

# Any updates in West Vancouver?

Alan Bardsley responded— no update since the Spring but the District of West Vancouver is moving forward with the Trails Plan and signage for trails on public land. There will be future discussions with user groups on trail classification and options for establishing a maintenance plan for trails in the Mystery DH area that span DWV land and British Pacific Properties land (approximately 2-3 years)

# Brent Hillier put forth an announcement to the community

If you want to ensure that the Griffen Switchbacks on Fromme are not decommissioned, please email the district of North Vancouver that they should be "saved/revitalized" and not replaced or closed. Place emphasis on reinforcing the rock armoring and improving the water management. Email brent@nsmba.ca

If the DNV don't hear from the community, they will decommission this trail.

# What are you planning for fundraising in 2019?

Cooper Quinn responded – Main priority is maintaining and growing membership, trail pass, donations and merchandise sales. But another raffle is planned for 2019 with more details to be released shortly.

#### Has the District of North Vancouver renewed the Fromme Maintenance Agreement for 2019?

Cooper Quinn responded – We are in discussions and we have no concerns regarding this funding avenue. Note that the agreement is a 3-year contract, but the specific numbers are agreed upon annually. We are working on establishing a similar agreement for the Seymour trails, but it will take more time as the DNV does not have a trails plan on Seymour to the extent they have on Fromme.

Does the NSMBA receive funding from the other land managers?

Cooper Quinn responded – RST BC gave \$5000 as part of Section 57 for maintenance. BC parks gave the NSMBA a Park Enhancement Fund Grant for \$5000 that is being used for the aMTB loop. Currently, we have no funding from Metro Vancouver.

# Have you considered increasing the cost of a NSMBA membership?

Cooper Quinn responded - There a lot of things to consider and many trail associations do charge more than \$40 but we currently have no plans to increase the cost of an NSMBA membership. We want to have as few barriers to membership as we can in order to ensure that our advocacy efforts remain strong. Those who are financially able to are encouraged to purchase a trail pass or donate along with their membership purchase.

# Are there any plans to expand the green/easy blue network to make it more accessible?

Brent Hillier responded – The plan for Lower Griffen is to establish one more reroute to make it a Green trail, thus creating a Green Loop on Lower Fromme.

aMTB Loop will also add more green options to Seymour.

# Comment – The NSMBA should push for carpooling requirements at the Fromme Parking lot Cooper Quinn responded- our past efforts had an accessible parking spot established on the lot. We encourage the community to email the DNV requesting carpool requirements on the Parking lot.

We continue to work to make other access points more accessible for everyone, such as advocating to rework the Dempsey Connector to connect closer to the parking lot. The community must email DNV Mayor, Council and/or DNV Parks staff to influence their decision-making process.

#### Is there any data on the retention of members this year?

Cooper Quinn responded – We do not have a strong system in place to easily compare each year to a member-specific level, but we are looking for a secure and safe auto-renewal system that doesn't involve us storing credit card information. The focus for the past several years has been on making membership purchase as quick and painless as possible.

# Can the NSMBA put together a list of topics and relevant emails that can be used by the community to contact the land managers?

Cooper Quinn responded – We are working on some sort of advocacy alert system, but we do not want to use form letters and take away individual voices. This is a main priority for 2019, especially as we work through the Double Black Diamond trail proposal on Fromme with the DNV.

# Is there a formal process for proposals?

Cooper Quinn responded- not yet but the most important aspect of getting a proposal approved is to have a lot of voices speaking in favour of it.

# Comment– There has been a huge improvement in trail quality and is way more accessible for older demographics

Cooper Quinn Responder – It's all thanks to the support of the community and the team of trail builders. Be sure to encourage everyone you see riding to become a member and support the trails. "Trails don't build themselves".

#### Are we able to increase the Fiver quota?

Cooper Quinn Responder – At this point we cannot. Our agreement with the land managers does not permit a higher number and a higher attendance would also mark a significant increase in wear on the trails and a resource strain for the sponsor for apres. There are many factors here, but the NSMBA will be looking at ways to improve the registration system.

# **Comment from Jonathan Skelcher (Director of membership)**

We are currently in the process of entering the history of Mountain Biking on the North Shore into the North Shore archives as well as an exhibit in the upcoming North Vancouver Museum. If you have items or info that could be relevant for the archives please contact <u>jonathan@nsmba.ca</u> or <u>info@nsmba.ca</u>

# Adjournment

Cooper Quinn and Christine Reid thanked the members and guests in attendance and motioned to adjourn the meeting.

The meeting was adjourned at 8:43pm

Moved: Brent Hillier | Seconded: Todd Fiander

Following the meeting, a short film by Westlynn Media about the value of membership was screened for the meeting attendees.
